Re: **N/M20 Cork to Limerick Project Update - February 2023**
00093_[2896438]

Dear Sir/Madam,

Limerick City and County Council is progressing the development of the N/M20 Cork to Limerick project in partnership with Cork County Council, Cork City Council, Transport Infrastructure Ireland and the Department of Transport. The project is a priority investment in the Governments National Development Plan 2021 – 2030. Barry Transportation and its project partners Sweco and WSP (BSW) are the Technical Advisors progressing the scheme up to and through the Statutory Processes.

The project team are currently progressing Phase 3 - Design and Environmental Evaluation. This includes the development of the project design, identifying the land take required and the preparation of an Environmental Impact Assessment Report for subsequent submission to An Bord Pleanála.

Following consideration of extensive feedback received, and of evolving climate, environmental and transport policy, a project update was recently published on www.corklimerick.ie. This project update includes, proposals for 80km of active travel infrastructure, identification of nine junction locations, inclusion of mobility hubs at junction locations, opportunities to enhance public transport, and refinements of the study area at Rathduff and Ballyhea, County Cork.

As we advance the project through the current phase, we would appreciate any observations you may have regarding the project. Observations can be made by email to info@corklimerick.ie, or by post addressed to N/M20 Project Office, Lissanalta House, Dooradoyle, Limerick V94 H5RR. You may also telephone 061 973730.

It is our intention to consult with you again during the successive phases of the project and Limerick City and County Council appreciates your feedback throughout this process.

Yours sincerely,

N/M20 Project Liaison Team
